COVID-19 Guidance Webinar

May 6, 2020

Welcome to our third GCC Covid-19 Guidance Webinar. The flow of this webinar will begin with GCC providing an update on the Match Waivers and processing and then we will move into our featured guest speaker.

We are excited to have Zack Moore join us as our featured speaker to share some information that may help you with your services as you plan for the staged reopening of North Carolina. Zack will provide an update from the Governor's recent press briefing and context on the plan to reopen. We will take questions for Zack in the chat and attempt to answer these at the conclusion of the presentation. Just keep in mind, Zack does not have specific knowledge of the GCC Grant programs.

Match Waivers

- ▶ GCC received 121 total Match Waivers

- Match Waiver requests have been processed through a two-tier level of review to ensure they were complete and checked to ensure they are correct. If there was a revision to the request needed our Grants Managers have been working with subrecipients to ensure GCC receives the revision.
- In addition, if a subrecipient has a Budget Adjustment or a Reimbursement the Grant Managers have been working with Subrecipients to withdraw these requests so that the Match Waiver can process. Once the Match Waiver

process is completed the subrecipient can then resubmit any requests that were withdrawn.

Match Waiver Continued

- ▶ GCC received 121 total Match Waivers

North Carolina Department of Public Safety

4

- Once the review steps are complete, we have our I.T. group to remove the match from each line in the GEMS System.
- We are working to quickly process the Match Waivers for you- we are processing in batches based on the order they were received. To date we have already provided a review of 109 requests with 36 projects match already waived in GEMS. We are working through the remaining requests with our subrecipients and will have this complete in the upcoming weeks.

NC DHHS, Division of Public Health

- ▶ Briefing on The Governor's Phased Plan to Reopen North Carolina
Zack Moore MD, MPH –State Epidemiologist and Epidemiology Section Chief
- ▶ Q and A by chat at the end

Thank you, Zack Moore for your time and presentation.
